#### Message from the Chairman

#### Assalamualaikum

#### Honorable Shareholders,

It is an honor and a privilege for me to present the Annual Report for the year 2016.

#### Global economy

After a slow outturn in 2016, economic activity is projected to pick up pace in 2017 and 2018, especially in emerging market and developing economies. However, there is a wide dispersion of possible outcomes around the projections, given uncertainty surrounding the policy stance of the incoming U.S. administration and its global ramifications.

With these caveats, aggregate growth estimates and projections for 2016–18 remain unchanged relative to the October 2016 World Economic Outlook. The outlook for advanced economies has improved for 2017–18, reflecting somewhat stronger activity in the second half of 2016 as well as a projected fiscal stimulus in the United States.

#### আস্সালামু আলাইকুম

#### সম্মানিত শেয়ারহোল্ডারবৃন্দ,

আজ আপনাদের সামনে ২০১৬ সালের বার্ষিক প্রতিবেদন উপস্থাপন করতে পেরে আমি আনন্দিত।

#### বিশ্ব অর্থনৈতিক প্রেক্ষাপট

২০১৬ সালে কিছুটা শ্রখ হলেও ২০১৭ এবং ২০১৮ সালে বিশ্ব অর্থনৈতিক গতি কিছুটা বাড়ার প্রাক্তলন করা হয়েছে উদীয়মান বাজার এবং উন্নয়নশীল অর্থনীতিগুলোতে। তবে মার্কিন যুক্তরাষ্ট্র প্রশাসনের নীতি নির্ধারণে অনিশ্চয়তার কারণে প্রাক্তলনে বিচ্যুতির আশক্ষাও রয়েছে।

২০১৭-১৮ সালের জন্য উন্নত অর্থনীতিতেও ভালো প্রবৃদ্ধির প্রাক্তলন করা হয়েছে। প্রত্যাশিত নীতি গ্রহণের কারণে চীনের অর্থনীতিতে ভালো প্রবৃদ্ধি হবে বলে প্রাক্তলন করা হয়েছে। আর ভারত, ব্রাজিল এবং মেক্সিকোর অর্থনীতি প্রাক্তলনের তুলনায় কিছুটা কম প্রবৃদ্ধি হওয়ার

#### Message from the Chairman

Growth prospects have marginally worsened for emerging market and developing economies, where financial conditions have generally tightened. Near-term growth prospects were revised up for China, due to expected policy stimulus, but were revised down for a number of other large economies-notably India, Brazil, and Mexico.

This forecast is based on the assumption of a changing policy mix under a new administration in the United States and its global spillovers. This projection is consistent with the steepening U.S. yield curve, the rise in equity prices, and the sizable appreciation of the U.S. dollar since the November 8 election. This WEO forecast also incorporates a firming of oil prices following the agreement among OPEC members and several other major producers to limit supply.

#### Crude Oil

Oil prices recovered sligthly in 2016 but it was well short of the magic number of USD 100 per barrel it reached in 2014-2015. Prices increased gradually in February and March and went over USD 40 per barrel after major producers prepared to meet to discuss a production freeze and U.S. output finally showed signs of declining. After a stable period, crude oil price reached to USD 50 level as an agreement between OPEC and non-OPEC members on output cap appeared in sight. In December, as the output deals materialized, oil prices ascended to USD 55 per barrel level, which sustained till the year-end.

#### Remittance inflows suffer setback

Wage earner's remittance saw a steep decline during H1 FY 17, dropping by 17.63% to USD 6.17 billion from USD 7.49 billion in the last fiscal. In FY 16, the overall remittance dropped 2.52% to USD 14.93 billion. These uninspiring numbers were registered at a time when the country's manpower export was 36.31% higher in 2016 than previous year with more than 0.75 million workers getting jobs abroad.

Remittance from Gulf Cooperation Council (GCC) countries which account for over 55% of total remittance inflow dropped 16.9% during July-December period as per reports from Centre for Policy Dialogue (CPD). Remittances from Malaysia, Singapore, UK and USA have also seen a significant fall during the same period, dipping by 9.8%, 13.5%, 23.2%

আশংকা করা হয়েছে। এসব পূর্বাভাস দেওয়া হয়েছে যুক্তরাষ্ট্রের প্রশাসনের নীতিগত ভিন্নতার প্রভাব বিবেচনায় নিয়ে। এমনকি বিশ্ব অর্থনীতির আউটলুকের এসব পূর্বাভাসে ওপেক (তেল রপ্তানিকারক দেশগুলোর জোট) সদস্য এবং প্রধান তেল রপ্তানিকারক দেশগুলোর মধ্যে চুক্তির ফলে তেলের দাম কেমন হতে পারে সেটিও বিবেচনায় নেওয়া হয়েছে।

#### অপরিশোধিত জ্বালানি তেল

২০১৬ সালে তেলের মূল্য কিছুটা বৃদ্ধি পেলেও তা ২০১৪-২০১৫ সালের (১০০ ডলার/ব্যারেল) মূল্যের কাছাকাছিও পৌছাতে পারেনি। বছরের শুরুর দিকে, মূল্য ৪০ ডলার / ব্যারেল পৌছালে, ওপেক ও তেল রপ্তানী কারক প্রধান দেশগুলো তেল উৎপাদন কমানোর সিদ্ধান্ত গ্রহণ করে। এর ফলশ্রুতিতে বছরের শেষে ব্যারেল প্রতি তেলের মূল্য ৫৫ ডলারে উপনীত হয়।

#### প্রবাসীদের আয়

এদিকে ২০১৬ সালে শ্রমিক রপ্তানি বাডলেও প্রবাসী আয় কমেছে। ২০১৭ অর্থবছরের প্রথম অর্ধে রেমিট্যান্স আয় ব্যাপকভাবে কমে গেছে। এ সময়ে রেমিট্যান্স আয় আগের চেয়ে ১৭ দশমিক ৬৩ শতাংশ কমে ৬ দশমিক ১৭ বিলিয়ন ডলারে নেমে এসেছে। ২০১৬ অর্থ বছরে রেমিট্যান্স আয় কমেছে আড়াই শতাংশ। অথচ এ সময়ে জনশক্তি রপ্তানি বেড়েছে ৩৬ শতাংশ। সেন্টার ফর পলিসি ডায়ালগের (সিপিডি) প্রতিবেদন অনুযায়ী, জুলাই-ডিসেম্বর সময়ে উপসাগরীয় অঞ্চলগুলো থেকে রেমিট্যান্স আয় কমেছে প্রায় ১৭ শতাংশ। অথচ এসব দেশগুলো থেকেই দেশের মোট ৫৫ শতাংশ রেমিট্যান্স আসে। মালয়েশিয়া, সিঙ্গাপুর, যুক্তরাজ্য এবং যুক্তরাষ্ট্র থেকেও যথাক্রমে সাড়ে ৯ , সাড়ে ১৩ , ২৩ এবং ৩৭ শতাংশ রেমিট্যান্স আয় কমেছে। তেলের দাম কমে যাওয়ায় উপসাগরীয় দেশগুলোর সরকার ব্যয় কর্তন করছে। পাশাপাশি তারা বিভিন্ন সংস্কার কর্মসূচীও নিয়েছে। যার প্রভাব পড়েছে এসব দেশের প্রবাসীদের আয়ের উপর। তবে অপ্রাতিষ্ঠানিক মাধ্যমে রেমিট্যান্স পাঠানোর কারণেও রেমিট্যান্স আয় কিছুটা কমেছে। আর রেমিট্যান্স কমে যাওয়ার ফলে বৈদেশিক মুদ্রার রিজার্ভের উপর নেতিবাচক প্রভাব পডেছে। তাই প্রাতিষ্ঠানিক মাধ্যমে রেমিট্যান্স আনার জন্য দ্রুত পদক্ষেপ নিতে হবে। পাশাপাশি দক্ষ জনশক্তি রপ্তানির জন্য প্রাধান্য দিয়ে প্রশিক্ষণ ইন্সটিটিউট গড়ে তোলা দরকার।

#### Message from the Chairman

and 36.9% respectively. Sharp fall in oil prices forced GCC governments to undertake economic reforms to scale down government spending including lowering of public and private investment programs and adopt austerity measures, which ultimately impacted worker remittances from these countries. In addition, as per media reports, the increase in transfer through informal channels has brought down the official remittance figures. Favorable exchange rate, lower transaction cost and lower delivery time are considered to be the primary factors driving the rise in usage of informal channels.

Slowdown in remittance can have undesirable implications concerning FX reserve and financing development projects therefore, addressing of the issue is of utmost importance. Immediate measures are required to bring the overseas remitters into the formal channel. While this may address the issue in short term, setting up of training institutes and information centers need to be prioritized to build and export skilled workforce, which would reap the benefits in the medium and long term through building a more sustainable remitter base.

#### Inflation and Monetary Policy

Average annual inflation has decreased to 5.52% at the end of 2016 down from 6.19% in 2015. The point-to-point inflation also dropped to 5.03% in December from 6.10% a year earlier. Drop in both food and non-food inflation and political calmness have helped to keep the inflation rate within government's and central bank's target of 5.80%. Food inflation has come down marginally to 5.38% in December 2016 from 5.48% in December 2015 whereas, non-food inflation slid to 4.49% from 7.05% during the same period.

Despite demand from the business community for lower interest rates, Bangladesh Bank (BB) did not make any major policy change in interest rates or rates related to repos and reverse repos. At the same time, BB was liberal in programming more credit flow to the private sector allowing an increase of up to 16.5 per cent to this sector for the next one year from that of the existing rate 16.4 per cent. In an emerging economy like that of Bangladesh having potentiality for higher growth, the supply side economics should be used as a neutralising factor against inflationary pressure.

Despite the challenges faced in 2016, the Bank was able to

#### মূল্যক্ষীতি ও মুদ্রানীতি

২০১৫ সালে যেখানে বার্ষিক গড় মূল্যক্ষীতির হার ছিল ৬ দশমিক ১৯ শতাংশ সেখানে ২০১৬ সালে তা কমে ৫ দশমিক ৫২ শতাংশে নেমে এসেছে। পয়েন্ট টু পয়েন্ট ভিত্তিতেও মূল্যক্ষীতির হার কমে ৫ দশমিক ৩ শতাংশে নেমে এসেছে। যা আগের বছরে ছিল ৬ দশমিক ১০ শতাংশ। খাদ্য এবং খাদ্য বহির্ভূত পণ্যে মূল্যক্ষীতি কমে আসা এবং রাজনৈতিক ছিতিশীলতার কারণে মূল্যক্ষীতি কমে গছে। ২০১৬ সালের ডিসেম্বরে খাদ্য মূল্যক্ষীতি কমে ৫ দশমিক ৩৮ শতাংশে নেমে এসেছে। যা ২০১৫ সালের ডিসেম্বরে ছিল ৫ দশমিক ৪৮ শতাংশ। খাদ্য বহির্ভূত পণ্যেও মূল্যক্ষীতির হার নেমে এসেছে ৪ দশমিক ৪৯ শতাংশে। যা আগের বছর একই সময়ে ছিল ৭ দশমিক ৫ শতাংশে।

উদ্যোক্তাদের পক্ষ থেকে ব্যাংক ঋণে সুদের হার কমানোর দাবি করা হলেও এ ব্যাপারে বাংলাদেশ ব্যাংকের পক্ষ থেকে কোনো পদক্ষেপ নেয়নি। এ সংক্রান্ত যেসব ইন্সট্রুমেন্টকে (রিপো ও রিভার্স রেপো) কাজে লাগানো যেতে পারে তাও করা হয়নি। তবে বাংলাদেশ ব্যাংক বেসরকারি খাতে ঋণ প্রবাহ বাড়ানোর ব্যাপারে সহযোগী ছিল। এখাতে ঋণ প্রবৃদ্ধি ১৬ দশমিক ৪ শতাংশ থেকে সামান্য বাড়িয়ে সাড়ে ১৬ শতাংশ করার লক্ষ্য ধরা হয়েছে। বাংলাদেশের মতো উদীয়মান অর্থনীতিতে উচ্চ প্রবৃদ্ধি অর্জনের সম্ভাবনা রয়েছে। তবে এজন্য সরকারকে সরবরাহ ব্যবস্থাকে প্রাধান্য দিয়ে মূল্যক্ষীতির চাপ নিয়ন্ত্রণে রাখা শ্রেয় হবে।

২০১৬ সালের চ্যালেঞ্জ মোকাবেলাসত্বেও ব্যাংক শেয়ারহোল্ডারদের ইকাইটি ১ দশমিক ৪১ শতাংশ বাড়াতে পেরেছে। ব্যাংকের খেলাপি খণের হার দাঁড়িয়েছে ৫ দশমিক ১৯ শতাংশে, যেখানে ব্যাংক খাতে গড় খেলাপি খণের হার ৯ দশমিক ২৩ শতাংশ। ব্যাংকের মোট সম্পদের পরিমান ১০ দশমিক ৪৭ শতাংশ বেড়ে দাঁড়িয়েছে ৩১ হাজার ৪৮৪ কোটি টাকায়। যা আগের বছর ছিল ২৮ হাজার ৫০১ কোটি টাকা।

পরিশেষে আমি ব্যাংক পরিচালনা পর্যদে থাকা আমার সহকর্মীদের প্রতি ধন্যবাদ জানাই। যারা আমাকে প্রয়োজনীয় পরামর্শ, সহযোগিতা দিয়েছেন এবং আমার নেতৃত্বের প্রতি আছা রেখে সামনে এগুতে সহায়ক ভূমিকা পালন করেছেন। আমি ব্যাংকের উর্ধেতন ব্যবস্থাপনা কর্তৃপক্ষকেও ধন্যবাদ জানাচ্ছি তাদের তাদের কর্মের দৃঢ়তা, অক্লান্ত শ্রম ও পরিছিতি মোকাবেলার আত্মপ্রত্যয়ী মনোভাবের জন্য। একই সঙ্গে আমি নিয়ন্ত্রক সংস্থাগুলোর কাছে বিশেষ করে বাংলাদেশ ব্যাংকের কাছে

increase the shareholders' equity by 1.41%. Percentage of Classified Loans stood at 5.19% while the industry average was 9.23%. Total Assets of the Bank increased to Tk. 31,484 crore from Tk. 28,501 crore registering an increase of 10.47%.

In the end I would like to thank my colleagues of the Board, for their relentless guidance, support and the confidence they have bestowed upon my leadership. I would also like to thank the senior management of the Bank for their dedication and determination in these trying circumstances. I also express my sincerest gratitude to all the regulatory bodies specially Bangladesh Bank for their support and guidance.

I thank the honourable shareholders of the Bank for their continued support and loyalty. I would like to end here with a word of caution that the coming year will be a challenging one for AB in many ways because of uncertainties of business, reduction of interest rates and constraints of the bank in undertaking large loan disbursement.

Let's all hope for a better 2017.

Thank you all.

Assalamualaikum

M. Wahidul Haque Chairman কৃতজ্ঞতা প্রকাশ করছি তাদের সহযোগিতা ও প্রয়োজনীয় দিকনির্দেশনার জন্ম।

সর্বোপরি, আমি সম্মানিত শেয়ারহোল্ডারগণকে ধন্যবাদ জানাচ্ছি তাদের অব্যাহত সহযোগিতা ও বিশ্বাস রাখার জন্য, যা আমাদের চলার পথে সহায়ক হয়েছে। এতকিছুর পরও আমি শেষ করতে চাই এই বলে যে, আগামী বছরটি হবে এবি ব্যাংকের জন্য অত্যন্ত কঠিন, কারণ ব্যবসায়িক অনিশ্চয়তা, সুদের হার কমে যাওয়া এবং বৃহৎ ঋণ প্রদানে ব্যাংকের সীমাবদ্ধতার বিষয়গুলো আমাদের মোকাবেলা করতে হবে।

২০১৭ সাল সবার ভাল কাটুক, এই আশা রাখি।

সকলকে ধন্যবাদ।

#### Message from the President & Managing Director

#### Dear Shareholders,

#### Assalamualaikum

AB, being the first private sector bank in this country, epitomises the banking industry benchmark offering best quality services to its customers. In today's world, economic development of a country is quite impossible without banking services. Banks play a pivotal role in the economy and the society as a whole. Initiatives taken by Banks and/or its partnership with entrepreneurs, contribute positively towards the economy, business environment, creation of job opportunities, technological innovations and thereby contribute the society as a whole.

AB offers a quintessential environment to implement banking solutions. The bank is committed to support new entrepreneurs to accelerate the innovative nature of their talent and build successful businesses.

In 2016, Bangladesh experienced a mosaic of hope, despair and the creation of momentous opportunities for shared prosperity. The government is working on creating 100 special economic zones in the country and has also classified a number of mega development projects into fast-track category to ensure rapid completion. Easing business setup and investment regulations and rapid execution of infrastructure projects will be the driving factors that will decide whether Bangladesh can increase foreign direct investment to USD 9.6 billion by 2020 from USD 2.2 billion at present and GDP growth rate to 8% in line with Planning Commission's 7th Five Year Plan.

While public investment is crucial for building private investment, revenue mobilization is the most important aspect that will drive public investment in coming years. At present, the Revenue-GDP ratio is only 9.90% and the government has a target to increase the ratio to 16.10% by 2020. Broadening the taxpayers base and revenue sources as well as focusing on income from service providers and self-employed are the primary challenges in attaining the target.

In 2016' AB's asset size and deposits increased by 10.46% and 14.88% respectively over 2015. Total export was Taka 7,605 crore and total import was Taka 11,579 crore in 2016. However, due to the tightened guidelines and weak business

#### Message from the President & Managing Director

sector-wise growth, it was very difficult to maintain asset quality. Our classified loan stood at Taka 1,136 crore as against last year's Taka 662 crore. Despite provisions due to classification of assets, AB maintained a Capital to Risk Weighted Assets Ratio (CRAR) of 10.79% i.e. above the regulatory requirement of 10.625%. Earnings per Share stood at Taka 1.94 and the Profit after Taxes stood at Taka 130 crore.

This year, we faced various challenges that slowed down our momentum, however, we have taken some measures to alleviate the effect of those challenges. My sincere appreciation to the spirit of my team members and the sound and professional guidance of our Honourable Board.

A culture has been set in AB to foster value-driven business rather than to run for profit only. AB is now one of the leading, successful Private Sector Commercial Banks of the country becoming an icon of a sustainable institution for our entire stakeholders as it is focused on "Bonding Generations". AB's visionary policy was always been concentrated on expanding business horizon by making portfolio diversification. We will continue to explore and expand our networks and business at home and abroad.

AB believes in compliance and control with strong emphasis has been given on adherence and implementation of national and regulatory policies and guidelines.

A large segment of banking is now technology-driven. Without losing sight of the human aspect of traditional banking, AB is taking strides in providing tech-savvy services to its clientele. We expanded our alternative delivery channels by increasing the number of ATM Booths to 275, partnering with MasterCard and introduction of World MasterCard, Gold and Titanium credit cards, automated utility bill collections etc. We have focused more on SME and Consumer Banking in order to reach the common, unbanked population of the country as inclusive finance ecosystem is evolving to include not only financial service providers, both banks and non-banks, but new players, like mobile money providers and e-money operators. AB firmly believes that as we grow, our responsibility towards the society grows too. AB therefore, invests quite a considerable amount of time and money towards Corporate Social Responsibility. Our first and foremost commitment is to contribute to the society for improving the lives of people, particularly the segment who are underprivileged and less fortunate in terms of basic needs and remain alongside as sincere benefactor of the country's rich heritage of arts, culture and sports.

I believe the biggest asset of an institution is the skilled human resources. The quality of their output forms the basis of the institution's overall performance resulting in the goodwill. This year, we have invested substantially towards the professional development of our employees through imparting training, seminars and workshops held at home and abroad. The focus of training at AB in 2016 was not only to develop its experienced officers but also the Management Trainee Officers aiming to make them mission-critical for our institution. AB believes in diversity and therefore, we consciously employ deserving candidates from diverse backgrounds for ensuring creativity, innovation and value-addition.

The year 2016 being difficult, our Board has termed the year as a year of consolidation and compliance. We have to prioritize our focus on selective investments rather than wholesale growth. I believe we have taken up the right strategy and have the right people to identify, grasp and benefit from opportunities and cope efficiently with adversity.

My sincerest thanks to our valued customers for their patronage, our shareholders and stakeholders for their continued support and trust in us, the regulators for their guidance and our Board of Directors for their pragmatic vision, valuable advice and leadership. I would also like to take the opportunity to express my sincere gratitude to our former President & Managing Director for his guidance and support.

This April, AB Bank completed 35 years of successful journey of serving its valued customers. We are committed to making a greater endeavor and success in the years ahead with your unwavering support and patronage.

I am privileged and honored to lead a winning and shining team of professionals. I thank all my team members for their strong commitment, dedication and continuous support.

#### Dear Shareholders,

Dear Shareholders,

#### Global Economy

In its latest World Economic Outlook (WEO, October 2016), IMF projected global growth to decline 3.1 percent in 2016

before recovering to 3.4 percent in 2017. The forecast reflects a more subdued outlook for advanced economies following the June 2016 BREXIT (Britain's exit from EU) vote in U.K. and weaker-than-expected growth in the United States. These developments have put further downward pressure on global interest rates, consequently the monetary policy is expected to continue to remain accommodative, particularly in the developed economies.

The IMF notes several underlying weaknesses as reflected in continuing decline in consumer spending in developed countries; Eurozone economic crisis and poor investment prospects are all adding to the slow growth to no growth situation. Declining real wages, rising unemployment, high levels of household debt are further exacerbating the current economic woes. Eight years on, the developed economies are still in a sluggish recovery mode following the Global Financial Crisis (GFC). The precarious nature of the recovery and the economic stagnation could ignite persistent calls for protection given the rising grip of populism in developed democracies. Such a fear is also shared by the OECD in its 2016 Annual Report pointing to the growing political and social opposition to freer trade that finds ardent constituencies in Europe and North America. Perhaps the November 8 election in the USA which catapulted highly protectionist Donald Trump on to the world stage could well be the harbinger of trade wars in the offing, which is reminiscent of the 1930s beggar-thy-neighbour tariff hikes. While Brazil, South Africa and Russian economy are struggling due to sanctions, falling oil prices and political crises, the Chinese economic growth prospects appear to be on track as envisaged in the 17th Five Year Plan (2016-20) at 6.5 to 7 per cent per annum. India is the star performer now among BRICS countries and is expected to achieve a growth rate of 7.6 percent this year and the next.

According to WEO October 2016 the subdued performance of world trade flows persisted in 2015 and 2016, with the volume of world trade is hovering at 2.6 and 2.3 percent – the lowest growth rate since the global financial crisis. The weakening pace of trade liberalisation and the recent uptick in protectionism are holding back trade growth, even though their quantitative impact thus far has been limited. The decline in the growth of global value chains has also played an important part in the observed slowdown. Global trade growth is expected to pick up to a moderate pace of 3.8 per cent in 2017, outpacing real world GDP growth, but still considerably below the rates witnessed during the pre-crisis period.

Continuing poor economic performance in the wake of the GFC in developed economies and very subdued economic growth prospect for developing economies are creating a fortress mentality in those countries. WTO has forecasted very slow growth in trade reaching the lowest level at just 1.7 percent this year since the GFC of 2008. Trade growth in

# Directors' Report 2016

2017 is estimated to lie between 1.8 percent and 3.1 percent. In the pre-GFC period trade was growing at double the rate of global GDP but in the post GFC period it is barely keeping up with the global GDP growth which itself also has declined significantly. Since the mid-1980s to 2007 world trade grew at an average of 6.5 per cent per annum but that figure reached 2.5 per cent in 2015 and is likely to be no better for 2016. One major factor that contributed to impressive growth in trade in the pre-crisis period was the fragmentation of production across countries around the world (known as global value chains or GVCs). This enabled the MNCs to exploit comparative advantage of individual countries to achieve global competitiveness. That also stimulated the flow of FDI.

## Bangladesh Economy

Bangladesh managed to grow at an impressive rate of 7.11% in FY 16 signifying strong macroeconomic fundamentals. Both industrial and service sector registered higher growth in the FY 16 fiscal compared to FY 15 registering 11.09% and 6.25% growth respectively. There were promising signs as private investment share in GDP increased to 23% in FY 16 from 22.1% in FY 15 along with stable public investment.

While public investment is crucial for building private investment, revenue mobilization is the most important aspect that will drive public investment in coming years. At present, the Revenue–GDP ratio is only 9.90% and the government has a target to increase the ratio to 16.10% by 2020.

#### **Economic Growth**

For FY 2017, the government has set the GDP growth target at 7.20%. However, World Bank has projected the growth at 6.80% citing domestic security challenges, weak external demand, stable private investment and weak remittances dampening private consumption. Some progress has been made by the government in helping to ease doing business, however there is still some way to go if the country is to attract large investment from local and foreign investors. The government is working on creating 100 special economic zones in the country and has also classified a number of mega development projects into fast-track category to ensure rapid completion. Easing business setup and investment regulations and rapid execution of infrastructure projects will be the driving factors that will decide whether Bangladesh can increase foreign direct investment to USD 9.6 billion by 2020 from USD 2.2 billion at present and GDP growth rate to 8% in line with Planning Commission's 7th Five Year Plan.

# Inflation hits the lowest mark in more than 4 years

Average annual inflation has decreased to 5.52% at the end of 2016 down from 6.19% in 2015. The point-to-point inflation also dropped to 5.03% in December from 6.10% a year earlier. Drop in both food and non-food inflation and political

calmness have helped to keep the inflation rate within government's and central bank's target of 5.80%. Food inflation has come down marginally to 5.38% in December 2016 from 5.48% in December 2015 whereas, non-food inflation slid to 4.49% from 7.05% during the same period.

The Finance Minister has indicated that oil prices will be adjusted downward in January 2017, which will be the second adjustment after the last cut in April 2016. While cutting oil prices may help to reduce the inflation, the announcement by Bangladesh Energy Regulatory Commission (BERC) to raise the price of gas for household users by 50% could undermine the effect. Furthermore, as global commodity prices have shown signs of recovery and as Taka has been depreciating over the past few months, there could be some degree of inflation.

#### FX reserve posts robust growth

The country's FX Reserves has continued to grow robustly in 2016 reaching USD 32.09 billion from USD 27.49 billion at the end of 2015, up by 16.73%. Although, the current account slipped into negative territory on the back of falling remittances and rising imports, the overall balance of payment is in surplus due to surplus in financial account. During the July-November period, the balance of payment surplus stood at USD 1.9 billion compared to USD 2.04 billion in the corresponding period last fiscal.

## Stock market surges on growing enthusiasm

Dhaka Stock Exchange delivered a stellar performance during the first half of FY 17, picking up from a jaded performance in the previous fiscal. Sluggish credit growth and poor dividend declarations were the major drags on the performance of the capital market in FY16. In July, from the very outset of FY 17, stock market started to recover as upbeat macroeconomic indicators and a steady political situation boosted investor confidence. Improvement in participation from both local and foreign investors contributed to recovery as DSEX index posted an 8.8% y-o-y growth as of December 2016 and posted an impressive 11.7% growth during the H1 of FY 17. Investor sentiment was largely aided by the policy support extended by Bangladesh Bank to banks in adjusting their capital market exposure without selling shares. In addition, as the deposit rates in banks pummeled backed by excess liquidity, people were more eager to enter into the capital market in search of higher returns, which has driven up the turnover in the stock market.

The premier bourse also witnessed major improvement in terms of foreign portfolio investment. In 2016, the capital market amassed BDT 13.41 billion of net overseas investment up more than sevenfold over BDT 1.85 billion in 2015. Banks, NBFIs, Power & Energy, Pharmaceuticals and Telecom sectors attracted majority of foreign investments.

## Directors' Report 2016

While portfolio investment accounts for a very small percentage of the bourse's market capitalization, such a growth exudes confidence in the economy. Market analysts believe that if the interest rate on national savings certificate is brought down in line with bank deposit rates, more money would flow into the capital market making it more vibrant.

#### Foreign Direct Investment

Higher foreign direct investment, portfolio investment and higher net foreign borrowing resulted in surplus in the financial account. Net foreign direct investment recorded a 9.6% growth to reach USD 719 million during July-November period of FY 17 compared to previous fiscal. In addition, the purchase of US Dollars by Bangladesh Bank through open market operation also helped to boost the overall FX Reserves.

Although the FDI is increasing it still comprises of only 0.9% of GDP, which is crucial in creating jobs and building sustainable FX reserves. However, there are encouraging signs as investment registration with Bangladesh Investment Development Authority (BIDA) has increased substantially to USD 14 billion during July-November period which is higher than the total amount of proposed investment registered in FY 16. With growing FX reserves and import coverage over 8 months, there are increasing demands of better utilization of reserves to check on inflationary pressure and growth in reserve money. Recently, the government has provided indication of setting up a sovereign wealth fund worth USD 5 billion using foreign exchange reserve for implementing its mega development projects.

## Liquidity glut keeps call money rates low

There has been very little movement in call money rate throughout 2016. Multiple factors, which include high government borrowing from non-banking sources, less than expected private sector credit demand and discontinuation of reverse-repo mechanism have weighed on the overnight interbank borrowing requirement. The weighted average call money rate dropped to 3.61% in December from 3.90% in January.

Larger than estimated sale of national savings instruments have reduced the government borrowing requirements. A 5-6 percentage point gap in rate between the savings instruments and commercial bank deposit rates led to its strong demand as national savings instruments are considered largely risk-free. The government has borrowed only BDT 40 billion from banking sources in FY 16 against a target of 385 billion. During July-September period, the government borrowed BDT 42 billion from banks while it repaid BDT 93.4 billion which added to the liquidity glut. The private sector credit growth which went up to 15.97% and

16.21% in July and August respectively came down to 15.01% in November. This is in contrast to the central bank projection of 16.60% growth in December and 16.50% at the end of June 2017.

The Central Bank discontinued reverse repo mechanism from November 2015 to lead banks towards investing in more productive sectors, which put downward pressure on call money rates in 2015. Furthermore, in January 2016 the repo rate was cut from 7.25% to 6.75% and reverse repo rate was cut from 5.25% to 4.75%. However, in April they have introduced 7-days and 14-days bill in addition to the 30-days bill to mop up excess liquidity, the auction of which takes place on all working days. The excess liquidity in the market has resulted in sharp decline in deposit and lending rates of banks as well as the interest rate spread. With the recent rise in import of capital machineries and construction materials for private investment and different infrastructure development projects, the low interest rate environment could drive up domestic credit growth.

#### Trade deficit widens as import outpaces export growth

During July-November, 2016, the country's trade deficit swelled to USD 3.88 billion, up 22.86% from USD 3.15 billion during July-November, 2015. During the same period, the current account deficit widened to USD 726 million compared to USD 1.34 billion surplus last year due to rising trade deficit and weak remittances. Growth in imports is partly attributed to increased imports for expediting different infrastructure projects of the government as well as capital machinery and raw materials imports, which could be a boon for the country's economic progress.

#### Directors' Report 2016

#### **Country Outlook**

Bangladesh's growth and poverty reduction objectives is partly dependent on global prosperity and openness in trade and investment in the coming decades. The 7th Five-year Plan has articulated a strategy for higher manufacturing growth coupled with export expansion and diversification predicated upon an export-oriented trade policy. A highly productive agriculture and double digit export-oriented manufacturing growth form the core development strategies to reach upper middle income status and eliminate extreme poverty by fiscal year 2030–31. Achieving success in these strategies will require deepening of globalisation and Bangladesh's increasing integration with the developed, emerging, and developing economies.

A strong wind of right-wing populist economic nationalism, anti-globalisation, and anti-establishment is sweeping much of Europe and North American politics, from prosperous Sweden and crisis-ridden Greece, to the USA, leading to the election of inward-looking leadership in the UK, the USA, Hungary, while similar prospects threaten France, Italy, Austria, and even Germany. Much vaunted plurilateral pacts, the Trans Pacific Partnership (TPP) and Trans Atlantic Trade and Investment Partnership (TTIP) are facing their steepest challenge yet and may be destined for the ashes of history. As bad as this might look, it could provide the much needed impetus to multilateralism which could be the saving grace in the end. Whereas China's export prowess could be an envy of the West, LDCs like Bangladesh are not on their radar yet. What could be disastrous for countries like Bangladesh is if the currents of economic nationalism lead to misguided policies of trade protectionism in advanced economies. That would not only result in further trade contraction but would be harmful for job creation and economic growth in developed and developing countries alike.

In the past years, the global slowdown of trade as well as exports has raised doubts in many minds, elsewhere and in Bangladesh, as to whether export dependence is a good idea, and whether it would be prudent to reduce such external dependence. Voices are being heard in seminar circles to the effect that it is time to shift focus from exports to the domestic market. The point must be made that even slow growth in advanced economies create enormous demand for Bangladeshi apparels and footwear. Some \$40 trillion of global GDP and market demand is tied up in these markets. Our domestic market is growing fast with a rising middle class expected to grow to 27–30 million by 2025,

according to a report by Boston Consulting Group. Yet this is no match to the potential global market that beckons our entrepreneurs and the two million workers entering the labour force every year.

#### Gratitude

It is the privilege of the Members of the Board of Directors of the Bank, to express appreciation and gratitude to all the valued Shareholders, Clients, Patrons and well-wishers for their continued support and co-operations over the years. The Board is also indebted to the Government of Bangladesh, Bangladesh Bank, Bangladesh Securities and Exchange Commission (BSEC), Stock Exchanges, Office of the Registrar of Joint Stock Companies and Firms and other related entities for their continued guidance and support throughout this enduring journey of the bank.

The Board would like to place on record their deepest appreciation for the dedicated services rendered by all the employees of the bank.

AB will remain committed to its vision and also towards creation of Shareholder value. Besides, AB will also continue its holistic efforts in improving the lot of the common people and accelerating its contribution towards economic and social development of the country.

Ordinary shares are classified as equity when there is no contractual obligation to transfer cash or other financial assets.

#### Statutory reserve

As per Section 24 of the Bank Company Act, 1991 (Amendment up to 2013), 20% of current year's profit of the Bank is required to be transferred to Statutory Reserve until such reserve together with share premium account equals to its paid up capital.

#### Revaluation reserve

When an asset's carrying amount is increased as a result of revaluation, the increased amount should be credited directly to equity under the head revaluation surplus/ reserve as per BAS 16 "Property, Plant and Equipment".

#### Deposits and other accounts

Deposits are recognised when the Bank enters into contractual arrangements with the counterparties, which are generally on trade date and initially measured at the amount of consideration received.

#### **Borrowing**

Borrowed funds include call money, term borrowings and re-finance from different commercial banks, non-banking financial institutions and central bank.

#### Provision for taxation

Income tax represents the sum of the current tax and deferred tax.

#### **Current Tax**

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Bank's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Provision for current income tax has been made @ 40% on the accounting profit made by the Bank after considering taxable allowances and disallowances as per income tax laws applicable for the Bank.

### **Deferred Tax**

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and are accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

# Notes to the Financial Statements For the year ended December 31, 2016

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Bank is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax is charged or credited to the income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the company intends to settle its current tax assets and liabilities on a net basis.

The impact on the account of changes in the deferred tax assets and liabilities has also been recognized in the Profit and Loss Account as per BAS-12 "Income Taxes" (note 10.01).

Balance with Bangladesh Bank is treated as cash and cash equivalents as per BRPD Circular no. 14 dated 25 June 2003.
3	Investment in shares and securities	As per requirements of BAS 39 investment in shares and securities generally falls either under "at fair value through profit and loss account" or under "available for sale" where any change in the fair value (as measured in accordance with BFRS 13) at the year-end is taken to profit and loss account or revaluation reserve respectively.	As per BRPD Circular no. 14 dated 25 June 2003, provisions should be made for any loss arising from the diminution in value of investments. But, as per DOS Circular No.04 dated 24 November 2011, provisions can be made for any loss arising from the diminution in value of investments after netting of gain.
4	Revaluation gains/losses on Government securities	As per requirement of BAS 39 where securities will fall under the category of Held for Trading (HFT), any change in the fair value of Held For Trading (HFT) assets is recognised through profit and loss account. HTM measured at amortised cost at each year end by taking into account any discount or premium in acquisition. Amortised amount of such premium are booked into Profit and Loss Account or discount is booked to reserve until maturity/disposal. # 1.12 Compliance of Bangladesh Bank regulations over BAS/BFRS:

SI No.	Issues	BAS/BFRS	Bangladesh Bank
6	Provision on loans and advances/ investments	As per BAS 39 an entity should start the impairment assessment by considering whether objective evidence of impairment exists for financial assets that are individually significant. For financial assets that are not individually significant, the assessment can be performed on an individual or collective (portfolio) basis. Such provision shall be netted off against loans and advances.	As per BRPD circular No.14 (23 September 2012), BRPD circular No. 19 (27 December 2012) and BRPD circular No. 05 (29 May 2013) a general provision at 0.25% to 5% under different categories of unclassified loans (good/standard loans) has to be maintained regardless of objective evidence of impairment. Also provision for sub-standard loans, doubtful loans and bad losses has to be provided at 20%, 50% and 100% respectively for loans and advances depending on the duration of overdue. Again as per BRPD circular no. 10 dated 18 September 2007 and BRPD circular no. 14 dated 23 September 2012, a general provision at 1% is required to be provided for all off-balance sheet exposures. As per BRPD circular no. 14 dated 23 September 2012, once a loan is classified; interest on such loans are not allowed to be recognised as income, rather the corresponding amount needs to be credited to interest suspense account, which is presented as liability in the balance sheet.

10	Financial Guarantee	Financial guarantee liabilities are recognised initially at their fair value (as measured in accordance with BFRS 13), and the initial fair value is amortised over the life of the financial guarantee. The financial guarantee liability is subsequently carried at the higher of this amortised amount and the present value of any expected payment when a payment under the guarantee has become probable. Financial guarantees are included under other liabilities.	As per BRPD Circular no. 14 dated 25 June 2003, financial guarantees such as Letter of Credit, Letter of Guarantee, Acceptance and Endorsement, etc. will be treated as off balance sheet items.

- b) Tier-1 capital will be at least 6.0% of the total RWA.
- c) Minimum CRAR of 10% of the total RWA.
- d) Additional Tier 1 capital can be admitted maximum up to 1.5% of the total RWA or 33.33% of CET1, whichever is higher

- f) In addition to minimum CRAR, Capital Conservation Buffer (CCB) of 2.5% of the total RWA is being introduced which will be maintained in the form of CET1.

#### Following is the phase-in arrangement for the implementation of minimum capital requirements

Phase-in arrangement of minimum capital requirements

	2015	2016	2017	2018	2019
Minimum Common Equity Tier-1 Capital Ratio	4.50%	4.50%	4.50%	4.50%	4.50%
Capital Conservation Buffer	-	0.63%	1.25%	1.88%	2.50%
Minimum CET-1 plus Capital Conservation Buffer	4. 50%	5.13%	5.75%	6.38%	7.00%
Minimum T-1 Capital Ratio	5.50%	5.50%	6.00%	6.00%	6.00%
Minimum Total Capital Ratio	10.00%	10.00%	10.00%	10.00%	10.00%
Minimum Total Capital plus Capital Conservation Buffer	10.00%	10.625%	11.25%	11.875%	12.50%

#### 5. Capital Conservation Buffer

Banks are required to maintain a capital conservation buffer of 2.5%, comprised of Common Equity Tier 1 capital, above the regulatory minimum capital requirement of 10%. Banks should not distribute capital (i.e. pay dividends or bonuses in any form) in case capital level falls within this range. However, they will be able to conduct business as normal when their capital levels fall into the conservation range as they experience losses. Therefore, the constraints imposed are related to the distributions only and are not related to the operations of banks. The distribution constraints imposed on banks when their capital levels fall into the range increase as the banks' capital levels approach the minimum requirements. The Table below shows the minimum capital conservation ratios a bank must meet at various levels of the Common Equity Tier 1 capital ratios.

#### Bank's minimum capital conservation standards

CET-1 Ratio	Minimum Capital Conservation Ratio (expressed as percentage of earnings)
4.5% - 5.125%	100%
>5.125% - 5.75%	80%
>5.75% - 6.375%	60%
>6.375% - 7.0%	40%
>7.0%	0%

#### 6. Regulatory Adjustments / Deductions

In order to arrive at the eligible regulatory capital for the purpose of calculating CRAR, banks are required to make the following deductions from CET1/Capital:

Shortfall in provisions against NPLs and Investments Goodwill and all other Intangible Assets

#### Transitional Arrangements for Capital Deductions

Currently, 10% of revaluation reserves for equity instruments and 50% of revaluation reserves for fixed assets and securities are eligible for Tier 2 capital. However, Bangladesh Bank, in the light of Basel III proposals, has harmonized deductions from capital which will mostly be applied at the level of Tier 2. The regulatory capital adjustment will start in a phased manner from January, 2015 in the following manner:

Transitional Arrangements for Capital Deductions

Phase-in of deductions from Tier 2	2015	2016	2017	2018	2019
RR for Fixed Assets	20%	40%	60%	80%	100%
RR for Securities	20%	40%	60%	80%	100%
RR for Equity Securities	20%	40%	60%	80%	100%

Bank complied with the conditions as embodied in this respect wherever applicable.

#### 7. Leverage Ratio

A minimum Tier 1 leverage ratio of 3% is being prescribed both at solo and consolidated level

The banks will maintain leverage ratio on quarterly basis. The calculation at the end of each calendar quarter will be submitted to BB showing the average of the month end leverage ratios based on the following definition of capital and total exposure.

#### Transitional Arrangements

The parallel run period for leverage ratio will commence from January, 2015 and run until December 31, 2016. During this period, the leverage ratio and its components will be tracked to assess whether the design and calibration of the minimum tier 1 leverage ratio of 3% is appropriate over a credit cycle and for different types of business models, including its behavior relative to the risk based requirements.

Bank level disclosure of the leverage ratio and its components will start from January 1, 2015. However, banks should report their Tier 1 leverage ratio to the BB (Department of Off-Site Supervision) along with CRAR report from the quarter ending March, 2015. Based on the results of the parallel run period, any final adjustments to the definition and calibration of the leverage ratio will be made by BB in 2017, with a view to setting the leverage ratio requirements as a separate capital standard from January 1, 2018.

Bank complied with the conditions as embodied in this respect wherever applicable.

#### a) Credit Risk

Credit risk is the potential that a bank borrower or counterparty fails to meet its obligation in accordance with agreed

Bank followed the suggested methodology, process as contained in the Guidelines.

#### b) Methodology

Bangladesh Bank adopted Standardized Approach for calculating Risk Weighted Assets. The capital requirement for credit risk is based on the risk assessment made by external credit assessment institutions (ECAIs) recognized by BB for

## Disclosures on Risk Based Capital (Basel III) Based on 31 December 2016

Annexure: E-1

capital adequacy purposes. Banks are required to assign a risk weight to all their on-balance sheet and off-balance sheet exposures. Risk weights are based on external credit rating (solicited) which was mapped with the BB rating grade or a fixed weight that is specified by Bangladesh Bank.

#### c) Credit Risk Mitigation

AB Bank uses a number of techniques to reduce its credit risk to which the Bank is exposed. For example, exposures may be collateralized by first priority claims, in whole as in part with cash or securities, a loan exposure may be guaranteed by a third party. Additionally, Bank may agree to net loans owed to them against deposits from the same counterparty.

Bank uses Comprehensive Approach as adopted by the Central Bank. In this approach when taking collateral, Bank will need to calculate adjusted exposure to a counterparty for capital adequacy purposes in order to take account of the effects of that collateral. Using haircut, Bank is required to adjust both the amount of the exposure to the counterparty and the value of any collateral received in support of that counterparty to take account of possible future fluctuations in the value of either, occasioned by market movements. This will produce volatility adjusted amounts for both exposure and collateral.

#### 9. a) Market Risk

Market risk is defined as the risk of losses in on and off-balance sheet positions arising from movements in market prices. The market risk positions subject to this requirement are:

- i) The risks pertaining to interest rate related instruments and equities in the trading book; and
- ii) Foreign exchange risk and commodities risk throughout the bank (both in the banking and in the trading book).

#### b) Methodology

In Standardized Approach, the capital requirement for various market risks (interest rate risk, equity price risk, commodity price risk, and foreign exchange risk) is determined separately. The total capital requirement in respect of market risk is the sum of capital requirement calculated for each of these market risk sub-categories. The methodology to calculate capital requirement under Standardized Approach for each of these market risk categories is as follows:

- a) Capital Charge for Interest Rate Risk = Capital Charge for Specific Risk + Capital Charge for General Market Risk.
- b) Capital Charge for Equity Position Risk = Capital Charge for Specific Risk + Capital Charge for General Market Risk.
- c) Capital Charge for Foreign Exchange Risk = Capital Charge for General Market Risk
- d) Capital Charge for Commodity Position Risk = Capital Charge for General Market Risk

Bank followed the suggested methodology, process as contained in the Guidelines.

#### 10. a) Operational Risk

Operational Risk is defined as the risk of losses resulting from inadequate or failed internal processes, people and systems or from external events. This definition includes legal risk, but excludes strategic and reputation risk.

#### b) Measurement Methodology

Banks operating in Bangladesh shall compute the capital requirements for operational risk under the Basic Indicator Approach (BIA). Under BIA, the capital charge for operational risk is a fixed percentage, denoted by (alpha), of average positive annual gross income of the bank over the past three years. Figures for any year in which annual gross income is negative or zero, should be excluded from both the numerator and denominator when calculating the average.

Bank followed the suggested methodology, process as contained in the Guidelines.

(a) The general qualitative disclosure requirement including the nature of IRRBB and key assumptions, including assumptions regarding loan prepayments and behavior of non-maturity deposits, and frequency of IRRBB measurement

Interest rate risk is the potential that the value of the On Balance Sheet and the Off Balance Sheet position of the Bank would be negatively effected with the change in the Interest rate. The vulnerability of an institution towards the advance movement of the interest rate can be gauged by using Duration GAP under Stress Testing Analysis.

AB Bank has also been exercising the Stress Testing using the Duration GAP for measuring the Interest Rate Risk on its On Balance Sheet exposure for estimating the impact of the net change in the market value of equity on the Capital Adequacy Ratio (CAR) due to change in interest rates only on its On Balance Sheet position (as the Bank holds no interest bearing Off Balance Sheet positions and or Derivatives). Under the assumption of three different interest rate changes i.e. 1%, 2% and 3%

## I) Liquidity Ratio

## **Qualitative Disclosure**

(a) > Views of BOD on system to reduce liquidity Risk	Liquidity risk is the potential for loss to the bank arising from either its inability to meet its obligations of depositors as they fall due or to fund in increased assets as per commitment.
	"To mitigate liquidity Risk bank asses its risk appetite and manage the risk within a structured frame work. Professional resources are deployed to set the limits and procedures and get them approved by the Board.
	To reduce the liquidity Risk in a structured way, Bank monitors various indicators like regulatory indicators(CRR, SLR, MTFR, MCO, ADR, LCR, NSFR) and uses internal monitoring tools (WBG, CLP and MAT)
> Methods used to measure Liquidity risk	Liquidity measurement involves forecasting the bank's cash inflows against its outflows to identify the potential for any net shortfalls going forward. For measuring Bank uses some simple techniques as mentioned below:
	>Bank prepares Structural Liquidity Profile (SLP) on monthly basis. SLP is used to estimate the Bank's cash inflows and outflows and thus net deficit or surplus (GAP) over a series of specified time periods. Bank focuses on the maturity of its assets and liabilities in different tenors. Excessive longer tenor lending against shorter-term borrowing is monitored as this can put the Bank's balance sheet in a very critical and risky position.

## INDEPENDENT AUDITOR'S REPORT

#### To the Shareholders of AB Securities Limited

#### Report on the Audit of the Financial Statements

#### Opinion

We have audited the financial statements of AB Securities Limited, which comprise the Statement of Financial Position as at December 31, 2016, and the Statement of Profit or Loss and Other Comprehensive Income, Statement of Cash Flows and Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the company as at December 31, 2016, and of its financial performance and its cash flows for the year then ended in accordance with Bangladesh Financial Reporting Standards (BFRSs).

#### **Basis for Opinion**

We conducted our audit in accordance with Bangladesh Standards on Auditing (BSAs.) Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants Code of Ethics for Professional Accountants (IESBÁ Code) together with the ethical requirements that are relevant to our audit of the financial statements in Bangladesh, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the **IESBA Code.** We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Kev Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### 'Information Other than the Financial Statements and Auditor's Report Thereon'

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If based on the work we have preformed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of Management and Those Charged with the Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with BFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with BSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably expected to influence the economic decisions of users taken on the basis of these financial statements.

## INDEPENDENT AUDITOR'S REPORT

#### TO THE MEMBERS OF AB INTERNATIONAL FINANCE LIMITED

(incorporated in Hong Kong with limited liability)

We have audited the financial statements of AB International Finance Limited ("the Company") set out on pages 10 to 18, which comprise the statement of financial position as at 31st December, 2016, and the statement of income and retained earnings and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the financial statements give a true and fair view of the financial position of the Company as at 31st December, 2016, and of its financial performance and its cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standard for Private Entities ("HKFRS for Private Entities") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the Hong Kong Companies Ordinance.

#### **Basis for Opinion**

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Information Other than the Financial Statements and Auditor's Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the Report of the Directors, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of Directors and Those Charged with Governance for the Financial Statements

The directors are responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRS for Private Entities issued by the HKICPA and the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, in accordance with section 405 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- -- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedure's responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- -- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- -- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- -- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- -- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
